

BELT CLEANING BRUSH

FOR LEHR MESH BELTS

Brushing Technology

Engineering since 1984

Over 1200 machines for glass industry sold to 60+ countries

Belt cleaning Brush for Lehr

The belt cleaning brush is designed to remove stain and dirt from the lehr belt during operation. The main frame is manufactured from solid steel and is equipped with height adjustment to vary the brushing pressure and compensate wear.

Option:

- Filter type SFD with extraction by cartridges
- Filtering surface and cleaning of the cartridges by vibrator

This is a simplified online version.
