# ROLLER ANNEALING LEHRS

ANNEALING FLAT, WIRED AND U-PROFILED GLASS

**ENGINEERING SINCE 1984**

*Over 1200 machines  
for glass industry  
sold to 60+ countries*

## INTRODUCTION

Automatically controlled annealing lehrs for all tonnages

- > Modular type construction
- > Modernizing or increasing capacity of existing lehrs
- > Electrical resistances designed in accordance with needs and controlled by electrical power units with thyristors for greater consumption savings

Characteristics:

- \* Metallic modular construction
- \* Proportional control at heating and cooling
- \* Electrical heaters carefully placed inside the tunnel
- \* Power panel for heating and cooling and panel for temperature control
- \* Indirect heat exchangers with possibility to recover the heat
- \* Fully automatic operation with PLC + HMI

*Flat glass  
annealing  
lehrs*

**This is a simplified online version.

# ENGINEERING, DESIGN, MANUFACTURING AND INSTALLATION

*Innovation and Technology  
since 1984*

*Our vision is a world inspired by glass,  
empowered by Vidromecanica as a leading  
manufacturer of innovative equipment  
for the glass industry.*
